

I am a listener to K-LOVE radio in Chicagoland area. The music they play is inspiring to me. It truly helps me get through the day. I also enjoy the commentaries and news they provide. Since starting to listen to K-Love it has become my primary radio station. It is uplifting and safe for my kids to listen to. The public needs more stations that are family oriented and reflective of positive values. There is limited availability in the area with this kind of music so if it was gone there would be few choices left for the listener who enjoys contemporary Christian music (which is one of the fastest growing music styles in our country). Thank you.
